Our goal is to operate the library while ensuring the safety of our members, volunteers, and visitors. We continue to ask that anyone with symptoms of what could possibly be COVID-19 help everyone by staying home and using our online resources.

Using health guidelines from CDC, we’ve made decisions as to what measures we can ease, while reassuring visitors that their safety is our priority. These measures are listed below.

For visitors, as well as volunteers:
- We ask that those who are experiencing symptoms of COVID-19 or have been recently exposed, please cancel their visit or shift and follow CDC guidelines before rescheduling.
- Should someone come in exhibiting symptoms of illness they will be asked to leave.
- A visitors log book will be kept for attendees, including phone numbers of non-members.
- Those coming into the library on a day other than Tuesday or Saturday, will register in the log book and follow our protocols.
- Face masks are optional. Please respect the choice of those who continue to wear them.
- If you choose to wear gloves, please - NO LATEX – some individuals have severe allergies.

Other
- Requests for curbside pick-up of books from the Lending Library will continue. Please make requests via email, or by phoning.
- We will continue to provide on-line options for our members. Specifically, MyHeritage.com and other resources are available in the Member section of our website.

Safety & Cleaning
- Hand sanitizer is available for use in various locations throughout the library.
- Frequently touched surfaces such as door handles and bathrooms will be cleaned at least once each day.

If someone who was recently at the library tests positive for COVID-19, we will seek guidance from the Vermont Department of Health.
